# Materials and Finishes

## Dining · Training · Conferencing · Multi Purpose

### Specifications

All specifications stated herein are subject to change without notice. Any product dimensions stated herein are nominal.

### Core Material

#### Table Top Core

Laminate : Veneer : KrystalCast® : KrystalGlo® : Back Painted Glass

The standard table top core is 1 1/4" thick high density 45 lb. industrial grade particleboard or medium density fiber board (MDF). It meets or exceeds ANSI A208.1 and California Air Resources Board (CARB) Regulation 93120.2 Phase 1 and Phase 2 emission limits.

#### Core Options

NAUF Core

NAUF core material is available; please contact Nevins Customer Service Department.

### Table Base Construction

#### Atlantis Collection

##### Floor Mount Disc

Column is 3" dia., 14 gauge steel. Disc is 10" dia. x 1/4" thick with a 14 gauge spun steel cover. Floor mounting fasteners not provided. Standard finish is powder coat; polished chrome finish optional. Ships knocked down.

##### Fluted Disc

Column is 3" dia. 14 gauge steel; Disc are 22" or 26" dia. spun steel. (5) 1" dia. nickel levelers included. Standard finish is powder coat. Polished chrome finish is optional. Ships knocked down.

##### Atlantis<sup>2</sup> Disc

Column is 14 gauge steel. Disc is 1/4" thick steel. 16" x 16" Square Disc have a 3" dia. column; 20" x 20" and 26" x 26" Square Discs have a 4" dia. column. (4) 1" dia. nickel levelers included. Standard finish is powder coat. Ships knocked down.

##### Disc with Cover

Columns are 14 gauge steel; Disc cover is 15 gauge spun steel adhered to a 1/4" thick steel disc. 20" dia. discs have 3" dia. columns; 24" and 32" discs have 4" dia. columns. (5) 1" dia nickel levelers included. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

##### Disc With Cover (double weight)

Columns are 6" dia., 14 gauge steel. Disc cover is 15 gauge spun steel adhered to (2) 1/4" thick steel discs. Available disc sizes 24" and 32" dia. (5) 1" dia. nickel levelers included. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

#### Aven Collection

Available in laminate or veneer, the Aven base has 3/4" thick walls, is 6" deep with a hollow center section and a 5" face surrounding the hollow center opening. Included is a 3"H x 3/4" thick stretcher system, an open bottom for floor power access and (4) black plastic adjustable glides. Standard surface material include non-premium laminate or maple/cherry veneer. Base ships assembled; stretcher system ships knocked down.

#### Conveyance Collection

##### X Base

Column is 3" dia., 14 gauge steel. Mainbars are welded, 11 gauge steel. (4) 1" dia. nickel levelers are included; casters are optional. Standard finish is BC03 Satin Chrome powder coat. Ships knocked down.

##### T and C Base

Column is 1 1/2" x 3", 11 gauge steel. Mainbar is welded, 11 gauge steel. (2) 1" dia. nickel levelers are included; casters are optional. Standard finish is BC03 Satin Chrome powder coat. Ships assembled/welded.

#### Cosmo Collection

##### X Base

Column is 3" dia., 13 gauge steel. Mainbars are 2" dia. arched 13 gauge steel. (4) 1" dia. nickel levelers are included; casters are optional. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

### Table Base Construction (continued)

#### Cosmo Collection (continued)

##### 4-Col X Base : T/C Base : 2-Col T Base

Columns are 2" dia., 13 gauge steel. Mainbars are 2" dia. arched 13 gauge steel. 1" dia. nickel levelers are included; casters are optional for T/C Bases. Standard finish is powder coat; polished chrome finish is optional for T/C Bases and 2-Col T Bases only. Ships knocked down.

#### Elite Collection

##### X Base

Column is 3" dia., 14 gauge steel. Mainbar is 1/2" thick x 2"W, 14 gauge steel. (4) 1" dia. nickel levelers are included; casters are optional. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

##### 4-Col X Base : T/C Base

Fixed base columns are 2" dia., 14 gauge steel. Adjustable height columns are 2 3/4" square tubular. Mainbars are 1/2" thick x 2"W, 14 gauge steel. 1" dia. nickel levelers are included; casters are optional for T/C bases only. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

##### 2-Col T Base

Columns are 3" dia., 14 gauge steel. Mainbars are steel 1/2" thick x 4"W. (2) 1" dia. nickel levelers are included. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

#### Geo Collection

##### Laminate/Veneer Cylinder : Half Cylinder : Cube

Wall thickness is of 5/16" particle board, absolutely smooth and concentric. Bottom is of 1 1/2", 45 lb. density particle board. Each base includes (4) 1 1/4" dia. black nylon glides installed and a 50 lb ballast weight. For powered tables, the base will include a cutout in the bottom of the base for power connection to a floor outlet (under base).

##### Metal Cylinder

Cylinders are of 11 gauge steel, one-piece welded construction. Bottom is of 1 1/2", 45 lb. density particle board. Each base includes (4) mounting tabs with screws, (4) 1 1/4" dia. black nylon glides installed and a 50 lb ballast weight. For powered tables, the base will include a cutout in the bottom of the base for power connection to a floor outlet (under base). Standard finishes are powder coat BC03 Satin Chrome and BC08 Black; polished chrome finish is optional.

#### Koen Collection

##### Straight Leg : Angled Leg

Constructed of 5/16" x 3" (legs) and 1/2" x 2" (stretchers) steel. Included adjustable glides. Bolted Construction; ships knocked down. Standard finishes are powder coat BC01 Furniture White, BC03 Satin Chrome and BC19 Black Gloss; polished stainless steel is optional. Bolted construction; ships knocked down.

##### Angled X Base

Constructed of 5/16" x 2" steel. Included adjustable glides. Standard finishes are powder coat BC01 Furniture White, BC03 Satin Chrome and BC19 Black Gloss; polished stainless steel is optional. Welded construction; ships assembled.

#### Margo Collection

##### Post Round

Column is 2" dia., 14 gauge steel. (1) 1 3/4" dia. black plastic leveler is included; caster is optional. Powder coat finish is standard; polished chrome finish is optional. Ships assembled.

##### Post Square

Column is 2" x 2" Sq., 14 gauge steel. (1) 1 3/4" dia. black plastic leveler is included; caster is optional. Powder coat finish is standard. Ships assembled.

##### Post Square Adjustable Height

End bases are of 14 gauge steel, 2 3/4" x 2 3/4" U-shaped and are joined together by 2 steel stretchers. (4) 50mm dia. black nylon levelers are included. Electric height adjustment is activated by a digital push-button control panel with 3 memory presets. Standard finishes are BC01 Furniture White, BC03 Satin Chrome & BC19 Black Gloss. Ships knocked down; end bases attach to 2 stretchers using 4 bolts per stretcher.

##### Post Apron

Columns are 1 1/4" x 1 1/4". Apron frame is 1" thick x 2"W. (4) 1 1/4" dia. black nylon glides are included. Standard powder coat finishes are BC01 Furniture White, BC03 Satin Chrome and BC08 Black. Ships knocked down; Frame separate from legs; legs attached to welded frame using 2 bolts.

### Table Base Construction (continued)

#### Opus Collection

Opus bases features either two rectangular shaped (Straight Opus) or two v-shaped (Oval Opus) extruded aluminum end caps that embrace slide-in center panels (2 panels per base). Panel materials options include laminate, maple/cherry veneer and steel (plain or perforated metal). (2) 1.67" dia. nickel plated, natural plastic levelers are included. Standard end cap and metal panel finishes include BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle powder coat; polished aluminum end caps are optional. Standard laminate/veneer panel finishes include non-premium laminate or Nevins standard veneer finishes. No structural assembly required; requires panel insertion only.

#### Oscar Collection

##### T/C Base : X Base

Column is 2 1/4" dia., 13 gauge steel. Mainbars are cast aluminum. (4) 1.67" dia. nickel plated, natural plastic levelers are included; casters are optional for T/C/X bases. Standard finishes are powder coat (BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle); polished chrome finish is optional. Ships knocked down.

##### 1-Col Y base

1-Col Y base is a system of 2 Y bases and 1 stretcher. Column is 2 1/4" dia., 13 gauge steel. Mainbars are cast aluminum. (4) 1.67" dia. nickel plated, natural plastic levelers are included. Standard finishes are powder coat (BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle). Ships knocked down.

#### Pax Collection

##### X Base

Column is 70 mm x 70 mm tubular steel. Mainbar is of solid steel 3"W x 1/2" thick. (4) 1.25" dia. nickel black plastic levelers are included; casters are optional. Standard finish is powder coat, BC03 Satin Chrome and BC08 Black. Ships knocked down.

##### T / C Bases

Column is 70 mm x 70 mm tubular steel. Mainbar is of solid steel 3"W x 1/2" thick. (2) 1.25" dia. nickel black plastic levelers are included; casters are optional. Standard finish is powder coat, BC03 Satin Chrome and BC08 Black. Ships knocked down.

#### Pinnacle Collection

##### X Base

Bases with a 22" x 22", 26" x 26" or 32" x 32" mainbar have a 3" dia., 13 gauge steel column. Bases with 38" x 38" mainbar have a 4" dia., 13 gauge steel column. Mainbar is 2" dia. 13 gauge steel. (4) 1.67" dia. nickel plated, natural plastic levelers are included; casters are optional. Standard finishes include BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle powder coat; polished chrome finish is optional. Ships knocked down.

##### 4-Col X Base : T/C Base : 2-Col T Base

Columns and mainbars are of 2" dia., 13 gauge steel; Mainbar endcaps are welded and polished. 1.67" dia. nickel plated, natural plastic levelers are included; casters are optional for T/C bases. Standard finishes are powder coat (BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle); polished chrome finish is optional. Ships knocked down.

#### Skipper Collection

##### 4-Col X Base : T/C Base : 2-Col T Base : X Base

Column is 2 1/4" dia., 13 gauge steel. Mainbars are cast aluminum. (4) 1.67" dia. nickel plated, natural plastic levelers are included; casters are optional for T/C bases. Standard finishes are powder coat (BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle); polished chrome finish is optional. Ships knocked down.

##### 1-Col Y base

1-Col Y base is a system of 2 Y bases and 1 stretcher. Column is 2 1/4" dia., 13 gauge steel. Mainbars are cast aluminum. (4) 1.67" dia. nickel plated, natural plastic levelers are included. Standard finishes are powder coat (BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle). Ships knocked down.

##### 2-Col Y base

2-Col Y base is a system of Y end bases and stretchers. Tables exceeding 120"L, have 2-column T center bases. Column are 2 1/4" dia., 13 gauge steel. Mainbars are cast aluminum. (4) 1.67" dia. nickel plated, natural plastic levelers are included. Standard finishes are powder coat (BC03 Satin Chrome, BC08 Black and BC18 Black Wrinkle). Ships knocked down.

### Table Base Construction (continued)

#### Slide Collection

##### X Base

Column is 3" dia., 13 gauge steel. Mainbar is 13 gauge steel, 1/2" thick x 2"W. (4) 1" dia. nickel levelers are included; casters are optional. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

##### 4-Col X Base : T/C Base : 2-Col T Base

Columns are 2" dia., 13 gauge steel. Mainbars are 13 gauge steel, 1/2" thick x 2"W. 1" dia. nickel levelers are included; casters are optional for T/C bases. Standard finish is powder coat; polished chrome finish is optional. Ships knocked down.

#### Vega Collection

##### X Panels : Straight Panels : Curved Panels

Front and back panels are comprised of 3/8" MDF and 3/4" 45 lb. density particle board. Curved and X Panel base tables have 2" panels. StraightPanel base tables with Laminate, Veneer, KrystalCast® tables have 2" panels; Natural Stone and Back Painted Glass tables have 6" panels. Adjustable height straight panels have 8" panels. Grain direction is vertical. Vertical edges are covered with self edge laminate or veneer. Standard laminate/veneer panel finishes include non-premium laminate or Nevins standard veneer finishes. Adjustable glides are included/installed.

### Surface Materials and Finishes

#### High Pressure Laminate

The lamination process consists of laminate and backer sheets being adhered to core material under pressure with a water-based, formaldehyde free, low VOC adhesive. The underside of the top has a phenolic backing sheet applied.

#### Laminate Selection

For laminates not included in our listing of "Standard Laminates", please contact Nevins Customer Service Department to determine any applicable upcharges. While Nevins is an open laminate line, all laminates not included in our list of standard laminates, regardless of manufacturer or finish, are subject to upcharges.

# Materials and Finishes

Dining · Training · Conferencing · Multi Purpose

## Surface Materials and Finishes (continued)

### High Pressure Laminate (continued)

#### Samples

Samples of all laminates are available directly from the laminate manufacturer.

#### Care and Maintenance for Laminates

Clean plastic laminates with mild soap and warm water. Do not use steel wool, hot water, or any abrasive cleaning product.

### Veneer and Wood

Nevins veneer tops are constructed of flat cut, book matched, architectural grade maple or cherry veneer. The veneer is stained with penetrating wood dye, followed by two coats of high solids pre-catalyzed lacquer. The finish is hand sanded between coats of lacquer. Wood edges are solid maple or cherry wood. Veneers and Woods have a semi-open pore finish of a 35% sheen.

#### Veneer and Wood Finishes

Finishes on Cherry	Finish Code	Laminate Equivalent *
Light Cherry	CLC	WA 7919K.78 Amber Cherry

Custom **		
Stain to Match	STM	

\* Laminate Equivalents are not exact matches.

#### \*\* Custom Finish

Nevins can match most Wood and Veneer finishes. At the time of order, please provide Nevins with (2) labeled samples that are at least 3" x 3". Samples should be labeled with the customer's order reference number and sent to Nevins Customer Service Department : 14006 Newberg Rd, Cat Spring, TX 78933. Customer's stain to match samples will not be returned. Orders requiring a stain to match may extend the standard lead-time.

#### Samples

Samples of Nevins veneer/wood finishes are available directly from Nevins; Refer to [www.nevins.co](http://www.nevins.co)

#### Care and Maintenance for Veneer and Wood

Treat with care, as you would with any fine furniture. Coasters should be used under glasses. We recommend damp dusting and occasional cleaning with a soft cloth and a high grade furniture polish that does not contain silicone.

### Natural Stone

Polished finish is standard. Stone tops have a 3/4" plywood substructure adhered to the back of the stone. The beveled edge substructure is inset 3-6" from the table top edge. The substructure is sanded and painted white or black, color determined by Nevins. Plywood meets all ANSI/HPCVA HP-1 standards. NAUF plywood is available; please contact Nevins Customer Service Department.

Due to the naturally occurring variation in veining, color and physical character, over which Nevins has no control, Nevins marble and granite items are sold subject to irregularities of color, surface variations, veining or texture.

#### Natural Stone Finishes

Marble	Finish Code
Carrara White	M01
Granite	
Rajah Black	G07

#### Custom Stones

Nevins has access to an extensive range of natural and engineered stones, including those that contain recycled materials and are considered environmentally friendly. Please contact Nevins Customer Service Department with your preferred materials selection.

## Surface Materials and Finishes (continued)

### Natural Stone (continued)

#### Samples

Samples of Nevins standard stones are available directly from Nevins; Refer to [www.nevins.co](http://www.nevins.co)

#### Care and Maintenance for Natural Stone

Marble and granite, while hard and smooth, is not impervious to staining and scratching. The secret of preserving marble and granite in its original state is to keep it clean and avoid harsh chemicals. Do not use products that contain lemon, vinegar or other acids as a high acid content may etch the surface. Do not use scouring powders or creams as they may scratch the surface. Marble or granite should be washed often with clear, luke warm water on a clean soft cloth and cleaned more thoroughly twice a year with a mild detergent solution formulated for use on natural stone. It is strongly recommended that spills be wiped up immediately, as food and beverages are likely to damage stone. A coating of clear carnauba wax will help protect the surface and facilitates maintenance. Rewash after each cleaning. If through accident, or negligence, stains appear on surface, we then recommend you hire a professional natural stone restoration expert.

### Solid Surface

Matte/satin finish is standard. Solid Surface tops are adhered to a 3/4" plywood substructure. The beveled edge plywood substructure is inset 3-6" from the table top edge. The substructure is sanded and painted white or black, color determined by Nevins. Plywood meets all ANSI/HPVA HP-1 standards. NAUF plywood is available; please contact Nevins Customer Service Department.

#### Solid Surface Finishes

Dupont™ Corian®	Finish Code
Glacier White	S01
Savannah	S02
Silt	S03
Sahara	S05
Platinum	S07
Maui	S08

#### Dupont™ Corian® Terra Collection

DuPont™ has a collection of 26 Corian® colors that are Greengaurd® certified and made with pre-consumer recycled content. Please contact Nevins Customer Service Department.

#### Custom Solid Surface Materials

Nevins has access to many brands of solid surface materials. Please contact Nevins Customer Service Department with your preferred material.

#### Samples

### Surface Materials and Finishes (continued)

#### Solid Surface (continued)

##### Care and Maintenance for Solid Surface

Washing with soap and water is usually sufficient to remove surface dirt or residue. Ammonia based liquid cleaner (not window cleaner) may also be used. Always rinse surface thoroughly and wipe dry. Drying is an important step, preventing a build-up of soap film or cleaning residue, which can create the appearance of light scratches over time. Stubborn soap film or cleaning build-up in Corian is easily removed with an abrasive cleaner rubbed into the surface using a white Scotch-Brite™ pad. When finished, rinse thoroughly and wipe dry. Avoid surface contact with chlorinated solvents, chloroform, ketones, methylene chloride (paint removers), very strong acids such as concentrated sulfuric acids, hydrochloric acids and drain cleaners. For additional care and cleaning instructions refer to [www2.dupont.com](http://www2.dupont.com)

#### KrystalCast® and KrystalGlo® Resin

KrystalCast® and KrystalGlo® is an acrylic-based resin composition.

##### KK49/KK62 KrystalCast® and KG49/KG62 KrystalGlo® Table Tops

KrystalCast® and KrystalGlo® knife edge table tops are constructed in five layers; clear resin, colored resin, laminate, MDF and a laminate backer. The clear resin layer is 1/4" thick, the resin color layer thickness is 1/32". The edge is a 45° knife (KK49/KG49) or square (KK62/KG62) edge with an exposed MDF core. The exposed core is painted black, satin finish. White paint is available by request. KrystalCast® and KrystalGlo® surfaces have a satin finish.

##### KK62 KrystalCast® and KG62 KrystalGlo® Table Tops

KrystalCast® and KrystalGlo® square edge table tops are constructed in five layers; clear resin, colored resin, laminate, MDF and a laminate backer. The clear resin layer is 1/4" thick, the resin color layer thickness is 1/32". The edge is a square with an exposed MDF core. The exposed core is painted black, satin finish. White paint is available by request. KrystalCast® and KrystalGlo® surfaces have a satin finish.

##### KK58 KrystalCast® Table Tops

KrystalCast® square eased edge table tops are constructed in three layers; top layer is clear resin (3/4"), the middle layer is the color layer (1/32") and the bottom layer is of grey colored resin (1/32"). KrystalCast® square edge tops are adhered to a 1" thick Baltic birch plywood mounting board.

##### KrystalCast® Color Layer Finishes

Benjamin Moore® Color Match *	Finish Code
Super White	KC1
Gray Horse	KC2
Sheer Romance	KC3
Warm Springs	KC4
Dill Pickle	KC5
Putnam Ivory	KC6

##### KrystalGlo® Color Layer Finishes

Finish Code
Yellow
Orange
Green
Red

#### \* Custom Finishes

The KrystalCast® colored resin layer can match any of Benjamin Moore's® 3,500+ available colors. **Light colors are recommended over dark colors.** Call Nevins Customer Service Department with your preferred Benjamin Moore® color selection.

#### Custom Inlay

Materials such as mesh, metal grid, wires etc. can be inlaid into clear or tinted KrystalCast® products. Please contact Nevins Customer Service Department.

#### Samples

Samples of Nevins standard KrystalCast® and KrystalGlo® colors are available directly from Nevins; refer to [www.nevins.co](http://www.nevins.co). Samples of additional Benjamin Moore® colors are available from Benjamin Moore®; visit [www.benjaminmoore.com](http://www.benjaminmoore.com)

### Table Base Finishes

#### KrystalCast® and KrystalGlo® Resin (continued)

##### Care and Maintenance for KrystalCast® and KrystalGlo®

Clean KrystalCast® and KrystalGlo® surfaces by washing with warm water and mild soap or dishwashing liquid. Do not use solvents such as acetone, lacquer, thinner, gasoline, undiluted alcohol or benzene. KrystalCast® and KrystalGlo® can be restored to its original finish by using a green 3M Scotch-Brite™ pad. For deep scratch removal, use 320 grit or 400 grit sand paper followed by a green 3M Scotch-Brite™ pad to achieve the same satin finish.

#### Back Painted Glass

##### PG60/PG61/PG63/PG64 Back Painted Glass Tops

Starphire Glass is 1/4", tempered, flat polish edges and available in clear (PG60 and PG63) or acid etched finish (PG61 and PG64); standard black paint is white. Glass is bonded to a 1" MDF subtop; subtop is painted white. Custom back paint colors are available, please contact Nevins Customer Service Department.

##### Samples

Samples of Nevins back painted glass tops are available. Please contact Nevins Customer Service Department.

##### Care and Maintenance for Back Painted Glass

Clean with a non-streaking, non-ammonia-based window cleaner. Spray the glass lightly and then wipe dry with a dry, clean, lint free terry cloth. Continue lightly drying the glass in circular motions until the moisture disappears. Do not use scouring pads, steel wool, razor blades, scouring powders or highly acidic/alkaline cleaners.

\* Select base styles have limited powder coat finishes available. See specific base specification page for a listing of available powder coat finishes.

##### Polished Chrome Finish

Polished Chrome Finish is available on select metal table bases.

##### Polished Stainless Finish

Optional Polished Stainless Steel Finish is available on Koen table bases.

##### Care and Maintenance for Powder Coat Table Bases

Clean with a mild soap solution and rinse with clean, clear water. Wipe the entire surface and follow with a clean, dry cloth to buff dry.

##### Care and Maintenance for Chrome Table Bases

Clean with a wet cloth or window cleaner. For scuff marks or heavy soiling, a non-abrasive automotive chrome polish can be applied as directed.

## Table Base Finishes (continued)

### Metal Table Bases (continued)

#### Care and Maintenance for Stainless Steel Table Bases

Routine cleaning can be accomplished using warm water and a cloth. For a deeper clean, wipe the surface down with mild detergent, warm water and a cloth. Rinse thoroughly and wipe dry with a towel or cloth to prevent water spots. Wipe in the directions of the polish lines for best results.

### Laminate Table Bases

Vega Laminate Panels : Geo Laminate Cylinders, Half Cylinders and Cubes

#### Laminate Selection

While Nevins is an open laminate line, all laminates, regardless of manufacturer or finish are subject to laminate upcharges. Please have all laminates checked with Nevins Customer Service Department to determine any applicable upcharges. Refer to page 4 of this guide for a list of Nevins Standard Laminates.

Brownstone	TM08	NA
Black	TM09	WA 1595.60 Black

\* Laminate Equivalents are not exact matches.

#### Metal (Aluminum) Edge

Our aluminum t mold edge banding contains approximately 30% recycled content.

Metal Edge Finishes	Finish Code
Satin	ADS
Polished	ADP

#### Urethane Edge

Urethane is comprised of 65% by weight refined vegetable oil, a rapidly renewable material. The urethane edge is fused to a 1 3/4", 45 lb premium particle board core with 1/4" to 1 1/4" radius corners. The result is a seamless, integrally bonded edge. The seamless edge makes this ideal for sanitary environments such as healthcare, food service and laboratories. The edge is semi-soft, durable elastomer urethane edge that is impact resistant, anti-microbial and stain-resistant to all food items.

Urethane Finishes	Finish Code	Laminate Equivalent *
Light Beige	UR02	WA 1531.60 Light Beige
Khaki Brown	UR03	WA D50.60 Khaki Brown
Pepperdust	UR04	WA D327.60 Pepperdust
Dove Grey	UR05	WA D92.60 Dove Grey

Graphite	UR07	WA D91.60 Slate Grey
Brownstone	UR08	NA
Black	UR09	WA 1595.60 Black

\* Laminate Equivalents are not exact matches.

#### Additional Urethane Colors

Nevins has access to many additional urethane edge colors and finishes; please contact Nevins Customer Service Department.

### Edge Finishes (continued)

#### Resin Edge

The resin edge is casted onto the table core in a liquid state. Once cured, it becomes an integral part of the tabletop, forming a seamless union with the laminate. The seamless edge makes this an ideal choice for sanitary environments such as healthcare, food service and laboratory. The standard finish is satin. Alternate finishes, such as Gloss or Granite are available; please contact Nevins Customer Service Department.

Resin Finishes	Finish Code	Laminate Equivalent *
Light Beige	RS02	WA 1531.60 Light Beige
Khaki Brown	RS03	WA D50.60 Khaki Brown
Pepperdust	RS04	WA D327.60 Pepperdust
Dove Grey	RS05	WA D92.60 Dove Grey
Folkstone	RS06	Pionite SG241.N Folkstone
Graphite	RS07	WA D91.60 Slate Grey
Black	RS09	WA 1595.60 Black

\* Laminate Equivalents are not exact matches.

#### Granite Finish

For a more environmentally friendly resin edge option, consider our "granite" resin edge. Composed of ground up egg shells and scrap chips collected from the internal manufacturing process. Please contact Nevins Customer Service Department.

#### Wood Edge

Wood edges are of solid maple or cherry wood.

##### Wood Finishes

Finishes on Cherry	Finish Code	Laminate Equivalent *

##### 21-Ply Wood Edge

21-Ply wood edge is baltic birch plywood with a clear coat, natural finish.

##### \*\* Custom Finish

Nevins can match most Wood and Veneer finishes. At the time of order, please provide Nevins with (2) labeled samples that are at least 3" x 3". Samples should be labeled with the customer's order reference number and sent to Nevins Customer Service Department : 14006 Newberg Rd, Cat Spring, TX 78933. Customer's stain to match samples will not be returned. Orders requiring a stain to match may extend the standard lead-time.

##### Samples

Samples of Nevins veneer/wood finishes are available directly from Nevins; Refer to [www.nevins.co](http://www.nevins.co)

##### Care and Maintenance for Veneer and Wood

Treat with care, as you would with any fine furniture. Coasters should be used under glasses. We recommend damp dusting and occasional cleaning with a soft cloth and a high grade furniture polish that does not contain silicone.

# Materials and Finishes

Dining · Training · Conferencing · Multi Purpose

## Alternate Table Materials

While Nevins has a standard materials offering for our tables, custom material selections are welcome. Listed below are some suggested alternate materials. Please call Nevins Customer Service Department with your desired surfacing or edge material selection.

### Linoleum

Linoleum is a non-petroleum based, biodegradable material. It is manufactured from rapidly renewable resources including linseed oil, limestone, cork flour, rosin, jute and organic pigments. Linoleum is allergen free, has natural anti-bacterial and anti-static properties, self healing capabilities and is burn and scuff resistant.

### Reconstituted Veneers

Reconstituted veneers are engineered from sustainably harvested, African Obeche and Italian plantation grown poplar trees preserving rare and exotic species. Reconstituted Veneers, also known as Composite Veneers, are virtually defect free and unparalleled for consistency in grain and color.

### Bamboo Edge

Bamboo is a non-timber forest product that is rapidly renewable and highly sustainable with virtually no negative impact to the environment. Natural Bamboo has a hardness equivalent to Northern Hard Maple and is available in a variety of edge profiles, with a natural or carbonized finish.
