

Nevins Launches *Classic*, A Parsons Table fitting of its Namesake

Houston, TX - June 13, 2014

The Parsons table was introduced in the 1930s and has undeniably been an iconic piece for the past 84 years. With hundreds of companies offering their version of a Parsons table, Nevins knew they could offer their signature stamp to a timeless and favored piece by creating a line so *classic* that provides more customization options at the most competitive price.

Classic proudly stands as the industry leader in top options by providing five unique surface materials. Additionally, it offers a floating top option with four surface material choices.

Infused technology plays an integral role in Classic by combining elegant aesthetics with powerful functionality. With two unit variations, Classic meets any electrical need with poise and precision.

Classic is available in 3 heights (29", 36" and 42") with four widths (24", 30", 36", and 42") and five lengths (60", 72" 84", 96", and 120"). Customs are available upon request.
