

Nevins Introduces CLIMB multi-level seating

Houston, TX - December, 9th, 2015

Nevins puts a fresh spin on modular lounge seating with the introduction of Climb, a versatile multi-level seating collection.

Climb has earned itself an infallible position in modern seating, with its four dynamic yet simple units, integrated technology, and ability to customize. Shift away from the traditional table and chair and work uninhibitedly in various body postures and positions Climb allows. The collection's inspiring and untraditional shapes supports various landscapes that boast introspective study, creative and collective collaboration. Climb is a convertible modular communication tool; Arrange it in a circle, align it back-to-back, or move them to individual seats to fit the space.

CLIMB into an impromptu meeting, or your own sanctuary for relaxation.

Climb constructs temporary working layouts that can expand, contract and adapt to the intended space requirements. Climb's organic and functional form is a simple solution to assemble large or small groups without overpowering a space.

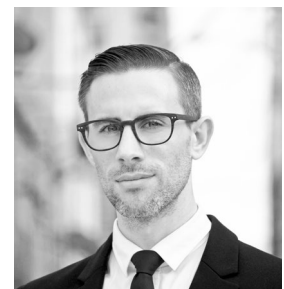

Features:

- Shapes (single in, single out, double in, double out.)
- Single step or double step
- 6 available power options (available on the front or top)
- 27 graded in CF Stinson fabrics & vinyls in a multitude of color selections
- Single or double upholstery applications
