

## — Nevins Introduces the Oscar Collection

Houston, TX - September 20, 2017

Nevins is proud to introduce the Oscar Collection, a collection that exudes durability, distinction, and performance.

Oscar features a strong column that curves effortlessly into its elevated die cast feet, creating a stable foundation and striking presence. The table is an elegant, technologically innovative piece with the power and data being routed through the column, bolstering its clean appearance. Oscar is the perfect table for any space requiring lasting quality and distinguishing performance.

The Collection is comprised of T-, C-, X- and Y-base tables. Oscar is available in numerous top finishes including: laminate, veneer, solid surface, back-painted glass, natural stone, and KrystalCast®. The various base styles, coupled with its varied heights, top shapes, and finishes allow for a variety of work postures and integration into any environment.
