

# Nevins Introduces Solid Surface, Drums and Cubes

Houston, TX - July 1, 2015

Nevins is proud to introduce Solid Surface Drums and Cubes to its' already expansive collection of Drums and Cubes. The low profile and clean design of a traditional Drum or Cube, make them aesthetically viable in a multitude of environments. These functional and technologically innovative tables can redefine any space. The allure and sophistication of Nevins' Oval Drum, Round Drum and Cube is elevated with the addition of the Solid Surface face.

The presence of a Solid Surface Drum or Cube emits a perception of grandeur and style, while sustaining practicality. Solid Surface Drums and Cubes are not only elegant, but are constructed to be extremely durable and resilient. Solid Surface effectively provides an enduring and stylish surface to any environment.
