

Nevins Launches Synk2 Seating

Houston, TX - April 28, 2014

Nevins is thrilled to announce the launch of Synk2, a dynamic modular lounge seating series that enhances workflow and transforms spaces with a timeless design. Synk2 offers limitless configuration and customizable features to provide a versatile power-filled experience for all environments in need of smart sophisticated seating.

Designed by Tony Richardson, Synk2 was created with a minimalistic zest that allows for vibrant and elegant color combinations to artistically enhance and accent any setting.

Its abundant range of straight and curved pieces allows Synk2 to configure to the most imaginative styles and shapes.

Synk2 differentiates itself by offering the industries broadest range of modular pieces with 24 standard units, 4 benches and 2 ottomans. The series vast accessories include various connector tables, tablet arms, occasional tables as well as drums and cubes. With integrated power available on any piece, Synk2 is the ideal seating collection for large and intimate settings to connect while working, waiting or resting.
