

# Nevins Introduces Think Glass Boards

Houston, TX - July 15, 2015

Think is a fully customizable glass board that breaks boundaries. With the ability to create virtually any shape, you can design unique glass boards for your specific workspace needs.

Think made to order glass boards are crafted to conceal any hardware. These minimalist boards look sleek and clean when mounted to your wall and never leave ghosting or stain. Our boards are not only beautiful; they are strong. Manufactured with 1/4 inch tempered glass. Think Glass boards are 4 to 5 times sturdier than typical glass. Think glass boards are unlike traditional whiteboards that need to be replaced every few years; Think can last the lifetime of your wall. With a wide range of sizes offered, Think can fit a variety of spaces.

Help extraordinary ideas flow with one-of-a-kind Think creations.
