

nevins

history

Nevins was founded in Texas in 1979 when Brian Nevins, a recent emigrant from New Zealand, entered the industry selling aluminum planters.

The rapid success of the planters allowed Nevins to expand its line exponentially. Now entering the company's 45th year, Nevins has spent the last four decades steadily expanding its product offerings for the corporate, educational, healthcare and collaborative markets.

Nevins' multiproduct offering is displayed here. With emphasis on clean design and sustainable products, our company's philosophy is to constantly change and adapt to markets needs.
